

KASHIF ALI

Full Stack & AI Engineer | React, React Native, SaaS

Karachi, Sindh, Pakistan

Mobile: +92-304-3780106 ~ E-Mail: kashifrajperali@gmail.com

Linkedin: <http://www.linkedin.com/in/kashifalirajper>

Portfolio: <https://kashifalirajper.vercel.app/>

Github: <https://github.com/Kashifalirajper>

Professional Summary:

- Full Stack Engineer with 5+ years of experience building scalable web and mobile applications using React, Next.js, and React Native. Specialized in SaaS platforms, AI-powered chatbots, and voice agents using LLM integrations. Strong focus on performance, system design, and clean architecture. Proven ability to deliver high-quality, production-ready solutions.
- **Mobile Development Experience:**
 - Developed cross-platform mobile applications using React Native (Android & iOS)
 - Integrated APIs, authentication systems, and real-time features
 - Optimized performance and UI responsiveness across devices
- **AI & Automation:**
 - Developed AI chatbots using LLM APIs (e.g., OpenAI, Gemini)
 - Built voice agents with speech-to-text and text-to-speech integrations
 - Implemented conversational flows, prompt engineering, and context handling
 - Integrated AI into SaaS platforms for automation and user interaction.
- **SaaS Product Development:**
 - Built scalable SaaS applications with authentication, dashboards, and billing systems
 - Designed multi-tenant architectures and role-based access systems
 - Worked on performance optimization and deployment pipelines (Vercel, etc.)

EDUCATION

Bachelor of Science in Computer Science

Sindh Madressatul Islam University - Karachi, Pakistan

2017 – 2021

WORK EXPERIENCE

Full Stack Developer (Team Lead) ~ [Elevatech Solutions](#) ~ Karachi, Pakistan July 2025 - Present

- Leading end-to-end development of scalable web and mobile applications using **React.js, Next.js, React Native (iOS & Android), and Node.js**
- Architecting and developing **full-stack systems** including REST APIs, backend services, and database design using **MongoDB, Firebase, and SQL**
- Managing **mobile app lifecycle**, including building, testing, and deploying applications to **Apple App Store and Google Play Store**
- Designing and integrating **AI-powered features**, including chatbots and voice agents using LLM APIs (e.g., OpenAI, Gemini)
- Driving **system architecture decisions**, ensuring scalability, performance optimization, and maintainable codebases
- Leading a team of developers through **code reviews, mentorship, and best engineering practices**
- Collaborating cross-functionally with product managers and designers to deliver **high-impact SaaS features**
- Managing **CI/CD pipelines, GitHub workflows, and deployment processes** for seamless releases

- Actively participating in **agile processes**, including sprint planning, reviews, and retrospectives

Web Development & Design Expert ~ [Mercor Intelligence](#) ~ Remote (Contract) Mar 2025 - Jun 2025

- Trained and fine-tuned Large Language Models (LLMs) specifically for front-end and full-stack web development tasks.
- Developed custom prompts and pipelines to enhance LLM performance in generating React, Vue, and Next.js code.
- Evaluated model output for correctness, code quality, and alignment with real-world project requirements.
- Created reference implementations and documentation to support LLM training and model validation.
- Collaborated with AI researchers and developers to bridge gaps between model capabilities and modern web development practices.
- Provided feedback on LLM output to improve context understanding in frameworks like Tailwind CSS, Node.js, and TypeScript.
- Contributed to building a training corpus that accurately reflects practical developer workflows and modern UI/UX design patterns.

Frontend Developer ~ [Sohomax \(Forsit\)](#) ~ South Korea · Remote Oct 2023 - Jan 2025

- Develop responsive, user-friendly front-end components with React.js (including tools like react-hook-form, yup resolver, and react-query) and Tailwind CSS.
- Currently working on Compass using Vue Nuxt for the frontend. Compass records sales from platforms such as Amazon, Qoo10, Walmart, and Shopify (accessible only to company employees at compass.forsit.co.kr).
- Engaged in web scraping projects using Node.js and Puppeteer for platforms like TikTok, Amazon, and others.
- Built front-end applications with appealing and user-friendly visual designs, focusing on intuitive and responsive interfaces.
- Created effective APIs to enable seamless communication between different parts of applications.
- Tested software to ensure responsiveness and efficiency, optimizing for performance and reliability.
- Oversee version control and collaborative workflows through GitHub.
- Facilitate team communication and coordination on Slack to ensure efficient teamwork.

Full Stack Developer ~ [Say Eagle](#) ~ Karachi, Sindh, Pakistan Jan 2023 - Nov 2023

We developed SayEagle, a comprehensive web application similar to AppFolio, featuring distinct portals for managers, admins, tenants, and vendors ([SayEagle Portal](#)).

- Led the design and deployment of SayEagle using React.js for a responsive and dynamic frontend, delivering a seamless user experience across portals.
- Built robust backend solutions with Node.js and integrated Firebase Functions for a scalable, serverless backend infrastructure.
- Managed real-time data using Firebase's Cloud Firestore, ensuring data integrity and security across all user interactions.
- Enhanced user engagement and security through real-time updates and secure user authentication using Firebase.
- Developed, tested, and optimized serverless APIs with Firebase Functions, ensuring smooth, reliable application performance.
- Collaborated closely with product managers, designers, and a cross-functional team of developers to achieve project milestones and ensure high-quality deliverables.

- Mentored junior developers regularly, promoting a culture of continuous learning and fostering collaborative growth within the team.

Full Stack Developer ~ Futurealiti ([Appsnation](#)) ~ Karachi, Sindh, Pakistan Apr 2021 - Dec 2022

Worked on diverse, large-scale projects, including a comprehensive task management system for our company and an employee monitoring system that tracks screen activity and productivity hours.

- Contributed as a Frontend Developer team member on [CNBC](#), collaborating with development teams to create impactful user experiences and ensure high standards of quality and functionality.
- Collaborated with development teams and product managers to ideate and plan software solutions that align with project goals and user needs.
- Designed both client-side and server-side architecture, ensuring well-structured and scalable solutions.
- Developed and managed databases for efficient data handling, ensuring applications function smoothly and reliably.
- Troubleshooted, debugged, and upgraded software as needed to enhance functionality and address issues promptly.
- Built mobile-responsive features and applications to ensure a seamless user experience across all devices.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Vue.js, Nuxt.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
- **Mobile:** React Native (iOS & Android)
- **Backend:** Node.js, Express.js, RESTful API Development
- **Databases:** MongoDB, Firebase (Firestore, Functions), MySQL, SQL
- **AI & Automation:** LLM Integrations (OpenAI, Gemini), Chatbots, Voice Agents, Prompt Engineering
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Firebase, CI/CD Pipelines
- **Collaboration & Workflow:** Jira, Trello, Agile/Scrum, Figma

Certification/ Awards

- Frontend Developer (React) Certificate ~ [HackerRank](#) 2024
- JavaScript (Intermediate) Certificate ~ [HackerRank](#) 2023
- Employee of the Month ~ [Futurealiti \(Appsnation\)](#) Jul - 2022
- Technical Support Fundamentals ~ [Google Career Certificates](#) ~ [Coursera](#) 2020
